

- 1 Odg na pitanja [npr. sta je isdn?]
- 2 Dati izraz za definiciju
- 3 Dopuni recenicu strucnim izrazim
- 4 Spoji definiciju i izraz
- 5 Spoji uzrok i posljedicu sa -ing [unit 9]
- 6 Spoji izraze izraze relativnim izrazima [unit 11]
- 7 Spoji izraze vremenskim prilogom [unit 13,15]
- 8 Preformuliraj izraz nekim modalnim izrazom [unit 16]
- 9 Preformuliraj upozorenja i savjete prema zadanim rijecima [unit 12,17]

Unit 8 - Application Service Providers

Procitat Tekst...

Website - Collection of related webpages

ASP - Application service provider

Virus - Self-replicating program

Office Suite - Set of standard programs used in a office

Bandwidth - Capacity of a network connection

Broadband -High capacity Internet connection

Data centre - Facility for storing large amounts of information

SAP - Common enterprise resource planning tool

Unit 9 - Multimedia

6. Match each cause and effect. Then link them with an -ing clause.

Computers with MIDI interface boards can be connected to MIDI instruments.

This allows music being played to be stored by the computer and displayed on the monitor.

*Computers with MIDI interface boards can be connected to MIDI instruments **allowing** music being played to be stored by the computer and displayed on the monitor.*

Each side of a DVD can have two layers.

This gives enormous storage capacity.

*Each side of a DVD can have two layers **giving** enormous storage capacity.*

MP3 removes sounds we can't hear.

This produces much smaller files.

*MP3 removes sounds we can't hear **producing** much smaller files.*

You can download single tracks.

You can create your own compilation.

*You can create your own compilation **downloading** single tracks.*

Each MP3 file has a tag.

This permits extra information to be stored on the performer and other track details.

Each MP3 file has a tag permitting extra information to be stored on the performer and other track details.

MP3 contains several devices.

These allow you to control the way the music sounds.

MP3 contains several devices allowing you to control the way the music sounds.

You can download a skin program.

This enables you to change the appearance of your player.

You can download a skin program enabling you to change the appearance of your player.

You can legally download some music.

This allows you to sample a new group before buying their CD.

You can legally download some music allowing you to sample a new group before buying their CD.

Algorithm - A formula used for decompressing components of a data stream

Unit 13 - The World Wide Web

Link each pair of actions using a time clause

You use a search engine.

It provides a set of links related to your search.

When *You use a search engine it provides a set of links related to Your search.*

With POP3, email is stored on the server.

You check your email account.

*With POP3, email is stored on the server **until** You check your email account.*

You have clicked on a hyperlink.

You have to wait for the webpage to be copied to your computer.

When *You have clicked on a hyperlink, You have to wait for the webpage to be copied to your computer.*

You listen to the first part of a streamed audio file.

The next part is downloading.

The next part is downloading (as where???ovo je gramaticki netocno i nema smisla) while You listen to the first part of a streamed audio file.

The graphics can be displayed gradually.

The web-page is downloaded.

*The graphics can be displayed gradually **as** the web-page is downloaded.*

You receive an email message.

You can forward it to another address.

After(ili when) *You receive an email message You can forward it to another address.*

You click on a hyperlink.

The browser checks to see if the linked webpage is stored in the cache.

When *You click on a hyperlink the browser checks to see if the linked webpage is stored in the cache.*

You can bookmark a webpage to make it easier to find it the future.

You find a webpage you like.

*You can bookmark a webpage to make it easier to find it the future **when** You find a webpage you like.*

You type in a Web address.
You should press Enter key.

***After** You type in a Web address, You should press Enter key.*

You click on the Home button.
The browser displays your starting webpage.

***When** You click on the Home button the browser displays your starting webpage.*

Unit 14 - Websites

Metadata - Data about data

Metalanguage - A language from which you can create other languages

HTML - An example of a page presentation language

XML - Extensible markup language

Markup language - A coding system used for structuring and formatting documents

Unit 15 - Webpage Creator

Link these statements using an appropriate time clause. Refer to Unit 13, Language Work, if you need help.

TREBA PROVJERIT JELI TOCNO !!!

You click the mouse pointer on the file.
It is highlighted.

***When** You click the mouse pointer on the file it is highlighted.*

You cannot save a file.
You name it.

*You cannot save a file **until** you name it. (ha mos moze ti bit bez imena :P)*

The files are transferred.

The transfer is graphically displayed.

*The transfer is graphically displayed **when** the files are transferred. ili?*

***As** the files are transferred the transfer is graphically displayed.*

*ja bi stavio(bianko) → The transfer is graphically displayed **while** the files are (being) transferred*

Make sure you have all the details of your set up.
You phone the helpline.

*Make sure you have all the details of your set up **when(b.b. bi stavia “before”)** You phone the helpline.*

The OK button is clicked.
The copying process begins.

When the OK button is clicked the copying process begins. **ili?** → **ta po meni**
As the OK button is clicked the copying process begins.

The percentage of file transferred is displayed.
Your browser downloads from the Internet.

*The percentage of file transferred is displayed **when(opet na ovakvim mjestima ide “while” jer ti se postotak pokazuje DOK skidas a ne KAD skines)** Your browser downloads from the Internet.*

The virus is not activated.
You open the file.

*The virus is not activated **until** You open the file.*

You repair a PC.
Ensure the machine is disconnected.

When(ja bi cak isa sa “before”) You repair a PC ensure the machine is disconnected.

Don't open an email attachment.
You have virus-checked it.

*Don't open an email attachment **until** You have virus-checked it.*

You add memory.
Change the BIOS settings.

When You add memory change the BIOS settings.

Unit 16 - Communications Systems

ISDN - Integrated Services Digital Network

TA - Device installed on a PC to allow it to receive ISDN signals

Data channel - Digital channel used to carry ISDN signalling and supervisory information to the network

Bearer channel - Digital channel used to carry ISDN data

DSL - Digital Subscriber Line

Splitter-based services - DSL system that separates the digital signals from the analogue signals

ADSL - Asymmetric Digital Subscriber Line

Unit 17 - Computing Support

Study these steps to take before you phone for technical support. Rewrite each one using the clue given.

Reboot your PC to see if the problem recurs. (should)

You should reboot your PC to see if the problem recurs.

Use your PC's on-board diagnostic and repair tools. (recommend)

It's recommended to use your PC's on-board diagnostic and repair tools.

Record the details of the problem so you can describe it accurately. (good idea)

It's good idea to record the details of the problem so you can describe it accurately

Note your system's model name and serial number. (advise)

I advise you to note your system's model name and serial number.

Keep a record of hardware and software you've installed along with any changes you've made to settings. (strongly recommended)

It's strongly recommended to keep a record of hardware and software you've installed along with any changes you've made to settings

If you think hardware may be at fault, figure out how to open the case. (should)

If you think hardware may be at fault you should figure out how to open the case.

Visit the vendor's website and check the FAQs. (best thing)

The best thing is to visit the vendor's website and check the FAQs

Avoid phoning in peak times. (never)

Never phone in peak times

Have your system up and running and be near it when you call. (good idea)

It's good idea to have your system up and running and be near it when you call.

When you reach a technician, tell him or her if you may have caused the problem. (advise)

When you reach a technician, I advise you to tell him or her if you may have caused the problem.
